

Checklist for Submission (2022.06 version)
Journal of the Japanese Society for International Nursing

Submit this checklist with all items checked (☑); otherwise, your manuscript will be returned.

Title : _____

1. Submission Information

- The first author is a member of the Japanese Society for International Nursing who has fully completed registration and the payment of annual fees.
- All co-authors meet the authorship requirements.
- The manuscript is related to international nursing and/or international health.
- A certificate of English proofreading for the manuscript in English and/or the abstract in English is attached.
- Any conflicts of interest are disclosed at the end of the article.
- If you used an existing scale or tool, permission to use it has been obtained.

2. Format

- The cover page includes the title; authors' names; their organization(s), and the corresponding author's name, telephone number, and e-mail address.
- If the manuscript is in English, the document has been formatted double space in A4 size with 30 mm margin on the left and right sides.
- The document in English is written in 11-point Times New Roman font.
- The English abstract is shorter than 300 words, and there is a maximum of 5 keywords.
- The manuscript includes a chart converted into the number of letters according to size and is written within the specified number of characters.
*Reconfirm this when resubmitting the manuscript.

3. Article Body, Tables, and Figures:

- The manuscript contains no ellipses or spelling errors.
- Citations in the article body and list of references correspond to each other.
- References follow the latest APA style.
- References are listed alphabetically by the family name of the first author, and then chronologically for references from the same author.
- There is no description in the text through which the reviewer can specify the authors (including the research funding number).
- Each table and figure is assigned a number.
- Figures and tables fit on a single page and are in a readable font size.
- The insertion points for the tables and figures are provided in the article.

4. Ethical Issues

- The manuscript has been approved by the relevant ethical board and does not require ethical approval.
- Ethical considerations are addressed in the main body of the article (if applicable).
- The human rights of subjects, such as the guarantee of anonymity, have been safeguarded.

I confirm that the above information is correct.
